6 KILLED IN STORM

Cyclone Laid Waste Farming Section In Mississippi.

MUCH PROPERTY DAMAGED

Wind Tore a Pathway Nearly a Mile in Width, Partly or Wholly Destroying Every Building in That Area. Dead Animals Marked Its Path.

Wesson, Miss., Feb. 3.—Six persons were killed outright by a cyclone which laid waste a strip of farming country three-quarters of a mile wide and several miles long just north of here Friday.

Three persons were probably fatally injured by the cyclone and many others were slightly hurt, when their houses were blown down. A negro who arrived here about dark brought news of the storm and an appeal for aid.

The cyclone struck about 4 o'clock p. m. For a distance of twenty miles in a northwesterly direction the wind tore a pathway nearly a mile wide, partly or wholly destroying nearly every building in this area. Scores of dead farm animals littered the cyclone's track. The residence of Mr. and Mrs. Maddox was blown almost completely off the premises and Mrs. Maddox's spinal column was broken. A negro was found fatally injured in the debris of Robert Littleton's farm house. The cotton gin and store of Ras Matthews were almost wholly destroyed.

Surrounding towns not in the direct path of the storm suffered damage during the few minutes of the cyclone's duration.

At Georgetown buildings were blown down and at Hazelhurst two sawmills were destroyed, many fences and several small buildings were blown over.

Center Point reported much damage but no loss of life.

Martinsville, which was just on the edge of the storm, escaped without serious damage.

Men in carriages are driving through the cyclone district offering aid to the storm sufferers.

SWALLOWED KNIFE.

Remarkable Accident to a Child in Banks County, Georgia.

Maysville, Ga., Feb. 3.—News has reached here from Rtd Oak, a little place in Banks county, of a strange accident to a little boy. Ralph, the six-year-old son of Mr. and Mrs. William Barber, who, while the mother was out of the room, got a case-knife down in his throat and swallowed the knife. Mrs. Barber rang the farm bell for her husband, but as he did not hasten to the house, she started to the field after him. Upon her return she found the child had succeeded in heaving violently, ejecting the knife from his throat.

This remarkable accident is vouched for by the best authority. How the child could have sheathed nearly six inches of an ordinary-sized knife in his throat is a marvel.

Famous Ship Tavern Closed.

London, Feb. 3.—The Ship Tavern, one of the most famous of London's riverside inns, located in Greenwich, has closed its doors after an existence dating back to the days of the great English statesman, William Pitt, who denounced the war against the American colonies and after whom was named for the Pitt from which the city of Pittsburg takes its name. It was at the Ship Tavern that Pitt instituted the famous ministerial White Bait dinners during his time of sixteen years as a member of the ministry.

Judge Worrell to Preside.

Macon, Ga., Feb. 3.—Judge Worrell of Dawson will preside at the criminal session of the superior court for Judge W. H. Felton here during the third week in February. A number of important cases will be heard and the court will be in the hands of the south Georgian. Judge U. V. Whipple is also to preside in some of the criminal cases that will be heard during the latter part of February.

G. O. P. GETTING BUSY.

Republicans Will Put Out Full State Ticket In Georgia.

Atlanta, Feb. 3.—It is now practically an assured fact, say persons in thorough touch with republican affairs in Georgia, that when the state election comes in October next there will be a full republican state ticket in the field ready and anxious for the votes of Georgians "who favor justice to every interest and to every individual and who oppose oppressive and discriminating laws," said by the active movants to now exist.

For some days past there has been a quiet, quickened step by leading members of the g. o. p. from various sections of the state within the federal building, but an unusual caution has been observed by all coming and going, not one of the recognized party members yielding in the slightest to importuning pressure for information.

Still, however, the old saw that a secret ceases to be a secret after more than one holds that secret, is again verified and it is now declared that a full state ticket will be named when the next state republican convention is assembled.

SOUTHERN PROGRESS.

Considerable Development Toward Increasing Textile Equipment.

Baltimore, Feb. 3.—Reports to the Manufacturers' Record during the past week indicate considerable activity toward increasing the textile equipment of the south.

Contract has been awarded at $23,700 for the construction of a mill at Weldon, N. C., for the production of two-ply 24s and 36s cotton yarns.

Construction has begun upon a 5,000 spindle mill at Lenoir, N. C.

At Blacksburg, S. C., will be erected a mill of 5,000 spindles and 120 looms to manufacture cotton cloth. The structure will be 160 feet wide by 200 feet long, and there will be a warehouse and boiler room, the total floor space of the building being 32,200 square feet.

A knitting mill at Spartanburg, S. C., is preparing to install equipment for spinning its own yarns and a mill at Pendleton, S. C., will add 8,000 spindles to its present equipment.

Other important industrial plans are under way in various southern states.

Several new railroads are projected.

WANT HIM TO STEP OUT.

Liberals and Socialists Ask Removal of Lieutenant Governor.

Vancouver, B. C., Feb. 1.—Important steps will be taken within the next few days in the effort to cause the removal from office of Lieutenant Governor Dunsmuir.

The Liberals have joined the Socialists in the provincial legislature and on Monday will ask the house, now sitting at Victoria, to petition the dominion government to remove Dunsmuir. The Victoria Colonist, the oldest newspaper in British Columbia, formerly owned by Dunsmuir, is demanding that the lieutenant governor step down.

RUN STARTED ON BANK.

Home Bank of Brooklyn, a State Institution, Suspends Business.

New York, Feb. 3.—The Home bank of Brooklyn, a state institution, on which a run was started Friday, did not open for business Saturday.

The Home bank is a small institution, located in South Brooklyn. It has a capital of $100,000, and a surplus and undivided profits amounting to $51,000. Its closing is without bearing on the general financial situation.

The deposits, which formerly averaged about $500,000, have been reduced greatly since the October panic.

Montgomery Fair Debt.

Montgomery, Ala., Feb. 3.—At a meeting of the state fair committee, charged with the duty of settling up the debts of the association, $14,000 —about one-third of the indebtedness —was represented. The holders of these claims agreed to take bonds of the association at par. It is expected that the others will be willing to make the same arrangement.

PRESIDENT'S SPECIAL MESSAGE.

Document Was Continuously Applauded in the House.

Washington, D. C., Feb. 3.—President Roosevelt's special message reiterating the policies for which he stands and has fought during his seven years in the White House, recommending the re-enactment of an employer's liability bill, urging federal supervising of interstate corporations, and dealing with the use of injunction in labor disputes, created a great deal of comment at the capitol.

The president's friends commend it enthusiastically. Some of the talks in the cloak room and corridors turned upon a third term for Roosevelt and discussed this action as a bid for support from those who believe President Roosevelt is the only man with the determination, grit and perserverance to fight through congress the aggressive policies outlined in this special message.

In the senate the message was heard in decorous silence. In the house it was continuously applauded, particularly the reference to punishment of wrong-doers and his defense of federal judges.

"A splendid democratic doctrine," said Senator Jeff Davis of the speech. "A bid for a third term," said Representative Clayton, of Alabama.

Senator Tillman found much to approve in the message, though he opposed the railroad pooling suggestion and the recomendations for squeezing out the watered stock in big corporations.

Senators Clay and Bacon declined to express an opinion.

MITCHELL ISSUES EDICT.

The Miners of Illinois Must Obey or Fight It Alone.

Indianapolis, Ind., Feb. 3—Coal operators of western Pennsylvania, Ohio, Indiana and Illinois, composing the central competitive field, went into executive session Friday with the national officers of the United Mine Workers of America and the district officers of the same to decide when a joint conference of miners and operators shall be called to re-establish the interstate wage agreement.

President Mitchell, of the miners, served notice on the Illinois operators that if they did not come into line with the other operators the conditions under which they would have to operate ultimately would be made for them. This was taken to indicate that Mitchell would favor making a scale with the other three states, leaving Illionis to fight alone.

"A BRAVE MESSAGE."

William Jennings Bryan Praises Latest Utterances of Roosevelt.

Wilmington, Del., Feb. 3.—William Jennings Bryan issued a statement bearing on the president's message sent to congress. He said he recognized the moral courage of Roosevelt in fighting against the opposition he has to contend with. Referring to the Wall street methods, he said it would be a safe bet that the financiers would see that they could place no dependency on Roosevelt as a friend of the system. His statement is in part as follows:

"It is a brave message and needed at this time. All friends of reform have reason to rejoice that President Roosevelt has raised his high position to call the attention "to the wrongs that should be remedied. He has discovered the running sore in our national life. He has pointed out the corrupting influences that flow from predatory wealth, and from the monopolistic enterprises which have given unearned riches to the few who, by controlling great industries of the nation, have levied tribute upon the whole country."

Supreme Court Justice Race.

Montgomery, Ala., Feb. 3.—It is understood here that Hon. John Lusk, of Marshall, will enter the race for justice of the supreme court. He was a floor leader in the senate and one of the right hand men of Governor B. B. Comer. Both Justices Simpson and Haralson will also ask for re-election. It is also well known that Judge John A. Bibro, of Gadsden; J. J. Mayfield, of Tuscaloosa, and possibly A. D. Sayre, of Montgomery, will be in the race.

SET GOLDEN STREAM FLOWING.

Prediction as To Results of Reciprocity with France and Germany.

Chicago, Feb. 3.—"Seventy-five million dollars of foreign gold pouring into the middle-west annually will be one of the first fruits of reciprocity treaties with France and Germany" declared Alvin H. Sanders, president of the American reciprocal tariff league, Friday.

Mr. Sanders is one of the committee of thirty or more, which will leave Chicago for Washington to call upon the president in the interest of tariff revision and reciprocity.

The passage of the Beveridge bill will be urged providing for a non-partisan committee of five to investigate the tariff and report for action and revision by the next congress.

"What we want," Mr. Sanders went on, "is such commercial relations as will enable western farmers to supply food products to the millions of Europeans. Both Germany and France are ready to do business with us upon this proposition.

PROVED TO BE WOMAN.

"Billy" Bates Convicted in Alabama of Trespassing on Railroad.

Birmingham, Ala., Feb. 3.—When "Billy" Bates, convicted in the county of Houston on a charge of trespassing on a railroad line, was received Thursday night at the Flat Top mines of the Sloss-Sheffield Steel and Iron company, it was discovered the person was a woman.

Another prisoner in the bunch received from Houston county was Joe Bates, a brother, and the statement was made that the two were making their way the best way they could from Canada to Jacksonville, Fla. They were getting along nicely until they reached the border line of Alabama, when a marshal grabbed them for trespassing and they were convicted and sentenced to the mines, the secret being maintained until striped suits were being furnished for the new prisoners being brought in.

ARGUMENTS CLOSED.

Case of Distillers Against South Carolina Dispensary Commission.

Asheville, N. C., Feb. 3.—Argument in the case of the Fleischmann company and the Wilson Distilling Co. against the South Carolina dispensary commission, came to a close Friday afternoon in the United States circuit court, Judge Pritchard announcing he would take the case under advisement in order to review some of the authorities quoted by counsel.

The judge may not render a decision until the middle of next week. He gave no intimation as to whether or not he would assume jurisdiction in the case. The order restraining the commission from turning the $300,000 fund into the state treasury, which was obtained Dec. 21, will continue in effect. The commission, however, can pay approved claims of creditors if it so desires.

Theater Owners to Meet.

Atlanta, Feb. 3.—Forty-two theater owners and managers, representing the leading theaters throughout the south, will meet in Atlanta on Feb. 6 for the purpose of discussing theatrical railroad rates as now applied to all theatrical combinations touring the southern territory. A call to this effect was sent out by Hugh L. Cordoza, general representative for the Wells circuit of twenty theaters throughout the south, Friday night. The sessions of the managers are to be held in the convention hall of the Piedmont hotel.

To Hold Farmers' Institute.

Montgomery, Ala., Feb. 3.—Commissioner of Agriculture J. A. Wilkinson, has agreed with Pres. Duncan of the Alabama Farmers' union, to aid him in holding a number of farmers' institutes and will send along experts to make addresses in the various counties. They will begin some time in March.

Chinese New Year.

Atlanta, Feb. 3.—The Chinese New Year 4,605, according to the Chinese calendar, was celebrated by the celestials of Atlanta on Saturday as well as throughout the country generally.

DEATH TRAP FOR FIVE

Guests of a Kansas City Hotel Burned In Their Rooms.

A LIST OF THE CASUALTIES

Disaster Occurred in a Three Story Rooming House Near the Business Section of the City—Besides the Dead, Five More Were Injured.

Kansas City, Mo., Feb. 3—Five persons were burned to death and five others injured in a fire in a three story rooming house at 1116 Wyandotte street, near the business section, Saturday morning.

Those dead are:

Mr. Jennie Bert, aged twenty-nine, of Harrisonville, Mo., a waitress.

Mable Porter, aged eighteen, a waitress.

Nina Graves, aged eighteen, a waitress.

Peter Rooney, aged thirty-four, cook.

Charles Johnson, aged twenty-six, a cook.

The injured received slight cuts and burns but none is believed to be in a dangerous condition. All of the dead except Mrs. Bert lived in Kansas City.

The injured were taken to the emergency hospital.

The fire started from an explosion of natural gas in the basement. The flames and dense smoke spread quickly throughout the building and before an alarm could be given, all means of escape by the ordinary exits had been cut off.

Five persons who lost their lives were asleep on the third floor, and all were burned to death in their rooms. Evidently they had been suffocated and none apparently had even made an attempt to escape.

Before the firemen arrived the entire building was a mass of flames.

Tried to Arouse Inmates.

Mrs. Bert lost her life in trying to arouse the inmates. Being awakened by the smoke she tried to arouse the sleeping roomers. The smoke and flames, however, crowded her so closely that she was compelled to desist and sought escape by the doorway. At the top of the second floor landing she stumbled and fell down the stairway and landed in the thickest of the flames. Her charred remains were later found by the firemen.

There were twenty-two persons in the building when the fire broke out.

Most of the roomers worked at night as waitresses and kitchen cooks at nearby hotels and restaurants. Most of them had retired only a short time previous and they were deep in sleep.

Bodies Terribly Burned.

The bodies of the other four victims were found in their beds. Each had been terribly burned, and the limbs dropped from one of them as the body was later carried from the house.

The building was one of the oldest in the city, and was situated in what in Kansas City's early days was known as "quality hill." The building was not supplied with fire escapes.

PLEA FOR ANTI-JUG LAW.

Judge Adamson Insists that the Prohibition States Should Be Protected.

Washington, D. C., Feb. 3.—Judge Adamson made a strong speech in the house Friday afternoon in support of the Hepburn-Dolliver anti-jug law.

Judging by the applause he received the speech made a decided hit.

The Georgia representative placed himself flatfootedly on the platform of home rule. He said if the people of a state or community were in favor of prohibition, their wishes should be respected and their efforts to make local laws effective should be encouraged in every way possible.

Contest of Billiard Experts.

New York, Feb. 3.—Another series of matches between billiard experts will begin at Daly's academy Monday night next when Ora Morningstar and Thomas G. Gallagher will start to play at the 182 balk line billiards, their games if 500 points each, to be played on successive evenings.

LAST FORAKER HOPE IS KILLED BY COURT

Ohio Supreme Court Upholds The Primary Law.

FIGHT ON JUDGE TAFT BLOCKED

The Fire-Alarm Senator from the Buckeye State is Down and Out—Can Neither Hope for Presidency Nor Retain Toga.

Walter Wellman, the renowned newspaper correspondent and political prognosticator, refers to the fight between Senator Foraker and Secretary of War Taft as follows in The Chicago Record-Herald of January 29th:

Columbus, Ohio, Jan 28.—By a vote of five to one the supreme court of this State today held the Bronson Primary law to be constitutional. The decision is adverse on all points to the Foraker contention and destroys the last excuse or pretext for further opposition to the will of the vast majority of the Republicans of Ohio, who favor Judge Taft for President. It was under the Bronson law that the state Committee called the primaries to choose delegates to the State Convention.

The Foraker people complained, first, that the terms of the call were unfair to them, and second, that the law itself was unconstitutional. By today's decision the Taft program is given legal status as correct. The fairness of the provisions of the call has never been seriously questioned by anyone save the violent members of the Senatorial cabal. Public opinion generally is all the other way.

This decision really ends the fight against Taft in his own State. At Cincinnati yesterday, I learned, upon the best authority, that Senator Foraker was considering the advisability of issuing a statement of surrender and of submission to the will of the majority of the party by withdrawing as a candidate for the Presidency. Up to the hour this dispatch is written no news of the issuance of such a statement has come, but it is known that Senator Foraker is in conference with his friends as to the advisability of such action.

Whether he decides to stick or to stop makes no difference now. Ohio is for Taft. It is all for Taft. Unless a miracle were to occur, Foraker cannot get a single delegate in the State. And it is impossible for a man to be a serious candidate for President without delegates to vote for him. The Senator has many friends in this State, and a few of his friends, perhaps a half-dozen, may secure election as delegates to the Chicago Convention. But they will be found either by Taft pledges or Taft instructions.

Such is the unfortunate ending, for the present at least, of a distinguished public career. Mr. Foraker cannot be a serious candidate for the Presidency. He cannot go as a delegate to the Chicago Convention. He cannot even secure re-election to the Senate. Not only is he down and out, but his friends everywhere have suffered, or are about to suffer, loss of prestige and power. Some have saved themselves by joining the Taft movement in time; others have stood out too long in their loyalty to the blunder of their leaders and must pay the penalty.

The peculiarity of the whole thing is that the man who had no machine, no organization, no political acumen, and who is, in fact, judged by the old standard, one of the poorest politicians in the world, has completely overthrown, horse foot and dragoons, one of the keenest and ablest political leaders in the country, backed by one of the most perfect organizations, led with rare skill.

This means something. It has a significance broader than the State of Ohio.

It means that a man like Taft, who ignores politics and simply goes on working with a might and main for the country's good, and for the successful performance of all the great tasks set for him by duty, need never fear to test his case with the people. It means that the old days of organization dominance are gone forever in American politics.

There is another significance which must not be overlooked. Senator Foraker, apparently with great sincerity, opposed the policies of President Roosevelt. With the frankness and courage which are characteristic of him, he openly criticized the President. Judge Taft stood and stands for the President and his program. Between Taft and Foraker in Ohio the issue was squarely drawn. There is a great difference between the men, it is true. On the side of personality Taft has immensely the advantage. But they tell me here that throughout the State, in the last analysis, the farmers and those whom Mr. Bryan loves to call "the plain people," rallied around Taft and against Foraker more on the Roosevelt issue than on anything else.

It seems to me the same causes are working in the other States, and that the clique of United States Senators who plot at Washington how to beat Taft and Roosevelt because the former, in their opinion, cannot be elected, will do well to remember and think of these things.

Certain it is that the Taft wave has had a mighty run in this State. There has been no standing before it. Take the case of George B. Cox, the boss of Cincinnati. Cox hates Taft. He does so naturally. Taft is not his kind of a man.

Moreover, in a speech not long ago Judge Taft denounced Cox for just what he is without any meaning of words. It was not a pleasant speech. Thick skinned as he is, even the boss winced. He has never forgiven Taft. What Cox says about the Secretary of War in private would not look well in print. And yet public sentiment in favor of Taft is so strong in Cincinnati that the boss of the town did not dare to try to stem it. He was forced to join in the procession. He likes Foraker a great deal better than he likes Taft, but knew that not one Republican in a hundred favored the Senator as against the Secretary.

One of Senator Foraker's closest friends and lieutenants told me, almost with tears in his eyes, that the Taft business had completely over-run the State. "When the Senator came back from Washington last spring," he said, "it was with the belief that the Taft business was all wind and that it would fade away in a few weeks. But it did not take him long to discover that in his absence some extremely clever political work had been done. The Taft people, led by the Secretary's brother and others, had secured control of the committees in many counties and districts.

"Still the Senator did not despair. He thought a majority of his remaining friends would stand true. But just then public opinion began asserting itself. For some unaccountable reason the people appear to have gone mad over Taft. They will not listen to anything else. Day after day our friends have been coming here to our office, or writing in, that they can stand out no longer; that the tide is running too strong; that they must save themselves. In this way Senator Foraker has seen his whole organization go to pieces. Scarcely a remnant is left. I doubt if any man prominent in public life in this country has ever gone through such a sad, humiliating experience. Foraker started in as absolute leader, he comes out with next to no following at all. He has been accustomed to giving orders, to having his own way. Now he has no one to give orders to; now he is forced to consider how he can get out with the best face, whether by formal surrender or by simply sitting tight and saying nothing. But let me tell you that those of us who have been close to him have marveled at his courage, at his magnificent nerve, as he has sat here and seen his great host melt away."

Suppose Senator Foraker decides to sit tight and to refrain from formal withdrawal from the contest in order to please his friends in the cloakroom of the Senate. It will make no difference in the outcome. The part of the anti-Roosevelt, anti-Taft plot, which involved a division of the Ohio delegation and the appearance of a factional fight from this State in the National Convention, has fallen to pieces. It is interesting to note, furthermore, in view of the talk of office-holders working for the President and for Taft, that here in Ohio about the only influential persons who have stood out against the Taft movement are the Federal office-holders appointed through the favors of Senators Foraker and Dick.

HELPFUL ADVICE

You won't tell your family doctor the whole story about your private illness—you are too modest. You need not be afraid to tell Mrs. Pinkham, at Lynn, Mass., the things you could not explain to the doctor. Your letter will be held in the strictest confidence. From her vast correspondence with sick women during the past thirty years she may have gained the very knowledge that will help your case. Such letters as the following, from grateful women, establish beyond a doubt the power of

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

to conquer all female diseases.

Mrs. Norman R. Barndt, of Allentown, Pa., writes:

"Ever since I was sixteen years of age I had suffered from an organic derangement and female weakness; in consequence I had dreadful headaches and was extremely nervous. My physician said I must go through an operation to get well. A friend told me about Lydia E. Pinkham's Vegetable Compound, and I took it and wrote you for advice, following your directions carefully, and thanks to you I am today a well woman, and I am telling all my friends of my experience."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

GREAT DEMAND

For Hyomei, the Catarrh Cure That J. W. McCollum & Co. Guarantee.

The sales record of all medicines by J. W. McCollum & Co. has been broken by the recent remarkable demand for Hyomei. This is not alone due to the peculiar weather conditions that have increased catarrhal troubles, but the way in which J. W. McCollum & Co. sell Hyomei is undoubtedly responsible for many sales.

With every dollar outfit they give their personal guarantee to refund the money if Hyomei does not give absolute satisfaction. Ask J. W. McCollum & Co. to explain to you about this guarantee.

There is no stomach dosing with Hyomei. It is a medicated air treatment that kills all catarrhal germs, preventing their growth and making catarrh impossible. It has cured many right here in Gainesville, and you should try it now and get relief from catarrh.

Preparing for Eventualities.

Tokio, Feb. 3.—At a sectional committee meeting of the diet M. Oishi asked against whom were Japan's military preparations directed. Minister of War Terauchi replied, saying that they were not directed against any single nation, but against eventualities on the Pacific where Japan has a long coast line from Sowhalien to the isle of Formosa.

FARMERS' INSTITUTE OPENS TOMORROW

A Program of Unusual Interest Will be Produced Here.

MANY PROMINENT SPEAKERS

From Every Section of the Country, Representing Farming and Cattle Interests, Will be On Hand—Big Barbecue Thursday Noon.

The Florida State Farmers' Institute, which will be held under direction of the Florida Experimental Station, and which will be one of the most important, if not the most important, events to the farmer and stockman ever held in this section of the South, will convene tomorrow evening at 7 o'clock.

The meetings will be held in the Tabernacle, Alachua avenue E., and the program which has been arranged, and which comprises some of the leading authorities in the United States and in Florida, is one of the most interesting and instructive ever compiled in this section.

Barbecue Thursday.

One of the most enjoyable features of this meeting will be a public barbecue on Thursday, which will be held on the grounds directly east and adjoining the Tabernacle. There is a magnificent oak grove at this point, which will assure comfort to all. This feature is under direct charge of Mayor W. R. Thomas, one of the members of the committee, which is an assurance that everything will be carried out to the queen's taste. Everyone who comes to attend the Institute on that day are assured of a good dinner and a profitable day spent.

It is to be regretted that Director P. H. Rolfs, director of the Experimental Farm and a very earnest and enthusiastic worker in this cause, is confined to his bed temporarily, but it is hoped that he will be enabled to be present at the opening session, in which he has manifested a great interest. Prof. Rolfs is suffering from a slight attack of la grippe, which has been so prevalent throughout this section for the past two months, but he is hoping that the attack will not prevent his attendance.

The Program.

The following interesting program has been arranged, which will prove of interest to the citizen and the farmer and stockman alike:

Wednesday, February 5, 7 p. m.—Address of Welcome, Col. R. E. Davis of Gainesville. "Agriculture in the University," Dr. Andrew Sledd, president of the University. "The Florida Live Stock Association," S. H. Gaitskill, president of association, McIntosh. "The Florida Farmer," Prof. F. G. Schell, secretary of the Cotton Growers' Association, Lake Butler.

Thursday, February 6, 9 a. m.—Exhibition of Cattle to be Slaughtered. Dr. C. A. Cary, superintendent Alabama Farmers' Institute. "The Cotton Growers' Association," Judge B. H. Palmer, Lake City. "The Farmers' Union," G. W. Trawick, president of the union, Mayo.

Noon—Barbecue, citizens of Gainesville.

2 p. m.—"Tick Fever and Its Eradication," Dr. E. P. Guerrant, Ocala. "Florida Agriculture," Hon B. E. McLin, Commissioner of Agriculture.

7 p. m.—Stereopticon Lecture, Dr. Andrew M. Soule, President Georgia Agricultural College, Athens. Address to Farmers, Governor Broward.

Friday, February 7, 9 a. m.—Exhibition of Slaughtered Cattle, showing good points and poor ones; Dr. C. A. Cary. "The Herefords in Florida," N. A. Callison, Spring Park Stock Farm. "The Herefords on the Range," C. R. Thomas, Sec. and Rep. of the Hereford Association.

2 p. m.—Address, Col. W. R. Goodwin, Breeders' Gazette, Chicago. "Stock Raising in Florida," S. H. Gaitskill. "Cattle Raising in the South," Col. W. A. Harris, representing the Shorthorn Association.

MONDAY A COLD DAY.

Thermometer Showed Coldest Day of Season, But No Damage.

Monday was the coldest day so far in the year in this section. The Government thermometer registered a minimum of 27 degrees, which exceeds by one degree the cold snap of about three weeks ago, when tender vegetation was destroyed.

The growers upon this occasion, however, were prepared, as they had warning of the approaching freeze by the temperature of Sunday, and the majority of the vegetation was protected by canvas. The result is that there was little damage reported by the truckers throughout this section Monday.

About the only sensitive vegetation now in the ground is lettuce, and this was well protected. There is quite an acreage of beets and cauliflower, but these are hardy plants, and will stand considerable cold.

While the thermometer fell to 27, there is no fear among the truckers and orange growers, who declare that everything is all right.

TOOK HAIR TONIC.

Young Man of Sanford Died from Effects of Foolish Dose.

Despondent because of his inability to secure employment at his trade as a painter recently, and with an evident determination to quit this old world which had been good to him for the past thirty-six years, R. E. Caldwell, who has been in this city about a week, swallowed a half glassful of hair tonic on Saturday night about midnight, from the effects of which he never fully recovered, dying in his room at his boarding-house some time early Monday morning.

The relatives of the young man were communicated with, and Undertaker Thomas has instructions to ship the remains to Sanford for interment. The body will leave here at 8 o'clock this morning, via Seaboard.

VEGETABLE MOVEMENTS HEAVY.

Lettuce, Cauliflower and Other Vegetables Going Forward.

Notwithstanding the fact that there was reported from the southwestern section of this county a few days ago acres of lettuce and other vegetables unprotected the Tampa and Jacksonville continues to haul large shipments to the Northern markets. The northbound train on Friday carried six solid carloads of vegetables, including lettuce, cauliflower, beets, etc. This shipment was as fine as an aggregate as has ever left the State, being extra fancy, and the shippers anticipate good prices. The majority of the produce comprised cauliflower and lettuce.

Should be sunshine in the house, and will be if you give it White's Cream Vermifuge, the best worm medicine offered to suffering humanity. This remedy is becoming the permanent fixture of all households. A mother with children can't get along without a bottle of White's Cream Vermifuge in the house. Sold by W. M. Johnson.

THE INSTALMENT PLAN

Some have criticised the instalment business as a menace to our people. Such indeed it may become when families are loaded up with diamonds, books and other articles of more or less a luxurious nature, when the weekly or monthly payments become a burden and finally the family sense of honor is crushed beneath the load. But the good the instalment business does far outweighs the bad. It is a pleasant contemplation for us to think of the thousands of homes we have had a hand in the establishing. It is pleasant to think that in these cases we have worked hand in hand with Cupid, and that but for the instalment business as we have conducted it, many a man would have continued to live in a hall-bedroom, and many a pretty maid to have wasted the beauty of her youth in waiting—waiting for the man of her choice to make his fortune.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally, that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the appoval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

POLITICAL ANNOUNCEMENTS

FOR MARSHAL.

I hereby announce myself a candidate for City Marshal in the election to be held on the 14th day of April, 1908. I promise if elected to endeavor to do the duties required by the ordinances as near as I possibly can, and I solicit the votes of all law-abiding citizens.

Respectfully,
CHAS. PINKOSON.

I take this method of announcing my candidacy for re-election as City Marshal at the election April 14th, 1908. I have endeavored to perform my duty without fear or favor, and would appreciate the support of my fellow-citizens, promising the same attention to the duties of the office in the future as in the past. Thanking you for past support, and soliciting your votes at the coming election, I am,

Very truly,
BEN T. ARNOW.

Well Pleased With Schools.

Dr. J. L. Kelley, county superintendent of schools, has returned from an official visit to several schools of the county. Dr. Kelley compliments many of the schools very highly, and says Stokes school, of which Mrs. Lilla Latimer is principal, is especially deserving of mention. The students of this school are well versed in all their studies, and altogether it is one of the leading rural schools of the county.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average baldheaded man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

A PROFITABLE INDUSTRY.

The following from the good wife of one of The Sun's oldest and most highly esteemed subscribers, shows what can be done in the way of raising chickens and eggs in Alachua county:

"Micanopy, Fla., Feb. 3.—Dear Mr. Editor: In a late issue of The Sun I see copied from The Ocala Banner a statement of Mrs. Dean in regard to egg and chicken raising for sale. I agree with her that there is more profit in selling eggs than chickens, though I think her hens made a poor showing. The first of January, 1907, I commenced with 78 hens, which number was reduced to 70 by October, when a few pullets came in, making about 85 the balance of the year I sold in the local market 886 dozen (10,632) eggs for $192.64, and sett fifteen or sixteen hens, raising about 75 chickens, besides using all the eggs we wanted in cooking. Pretty good, isn't it? Yours truly,

"MRS. D. C. HART."

"P. S.—If there is too much of this don't hesitate over the waste basket."

We assure Hrs. Hart that there is not "too much" of the article she refers to. It is the very kind of information that The Sun most desires, and we trust more of our readers will give information of a like nature concerning results on the farm.

REPUBLICAN PROMISES.

Some Republicans of national importance are declaring that after the coming election there will be a special session of Congress called in 1909 to consider the tariff and revise it. It is stated that the Republican platform will so declare. But if a Republican President and a Republican Congress are elected favorable to tariff revision there will still be a Republican majority of the United States Senate who are so wedded to ultra protection that any bill for real revision proposed by the House of Representatives will meet decided hostility and would be likely to emerge from the finance committee with an adverse report, or even higher rates than the present law imposes.

How can platform promises or personal pledges be expected to overcome the entrenched standpatters? The more so as the Republican platform will undoubtedly again declare for the "principle of protection," and under that declaration any Republican Congressman can, if he wants to, vote against the reduction of any schedule or against a reform bill that reduces the protection now enjoyed by any trust, combine or protected manufacturer that would declare that the proposed reduction of a rate would leave their product open to competition from a like foreign product.

For years the game has been played to promise that when "the public interests demand" there will be revision of the tariff schedules, but that work cannot safely be committed to any other hands than those of the Republican party. To intrust it to the Democratic party is to invite disaster." Such was the declaration of the Republican platform of 1904. But the Republican leaders were not satisfied with that declaration, and as an evident after-thought they added to the plank the mendacious statement that: "A Democratic tariff has always been followed by business adversity; a Republican tariff by business prosperity." Who therefore can or will believe what they say? Both their statement of adversity and their prognostication of prosperity has proven a false guide to their deluded followers.

As the Republican tariff has fostered trusts and allowed the combines to increase prices and sell cheaper abroad than here; as it has fostered speculation and extravagance, which has resulted in financial panic and business depression, so that many workingmen are hunting jobs with empty stomachs and their wives and children feel the pinch of poverty, will the Republican politicians admit the truth and reform a law that produces such dire results?

It is much to be feared they are wedded to their idols, the protected interests, and their promises are a broken reed to lean on.

FLORIDA MUST SPEAK ITS MIND.

[Tampa Tribune.]

When the Democratic Executive Committee meets February 11 a date will be fixed for the State primary elections. At that primary delegates should be chosen for a State convention which may adopt a platform of principle to be recommended to the Democratic National Convention, and, at the same time, Presidential electors may be chosen.

The more we study the trend of events the more absolute becomes the conviction that the success of the national democracy depends, in great measure, upon the united action of the Southern States in an instance that the party platform shall be confined, as far as possible, to those great principles of government for which it has ever stood and which have so often led to victory. The constitution wrecking processes of the Roosevelt administration together with the President's theatrical and indiscriminate onslaught on the industries of the country which have brought a far greater punishment upon the innocent than the guilty, emphasizes with extreme distinctness and with an unmistakable urgency the vital necessity of abandoning the superficial, unproductive and panic-breeding theories which have of late years been exploited in the world of politics and returning to the solid and effective policies by enforcing which the democracy of old laid a sound foundation and erected a staunch governmental superstructure.

The Southern States, then, must speak out in no unmistakable language. In order to do so the Democrats in those States must meet in convention and adopt resolutions calling upon the national party to enunciate a platform strong in its declaration of fundamental principles and carefully avoid making so-called "paramount issues" of questions of pure expediency or of minor importance which will, after all, be best regulated by the honest enforcement of the fundamentals.

And Florida should not fail in performing this first of all duties. Not one good reason can be given why a convention should not be held. On the contrary, the present situation calls loudly and impressively for such an assembly. It must be borne in mind that a candidate selected from no other section of the country will be so fully alive to the true situation as would one born and bred in the South where real Americanism has its home and the true secrets of a Republican form of government are best understood. Therefore, in laying aside all claims to nominate one of their own statesmen to head the national ticket, the Democrats of all the Southern States have a vital service to perform—their demand that the platform of the party shall conform to the sane, conservative ideas which alone will insure a Democratic victory.

Editors should not assume the "holier than thou." There's Powell of The St. Petersburg Independent. He seems to pat himself on the back every time he reads the liquor ads in The Ocala Banner. He smiles and says, "I'm a better temperance friend than Brother Harris." Be careful, brother. The Ocala editor did all right, editorially. As to his ads, The News leaves that matter to him. We do not carry that class, but still it is possible that we do something that is worse. "Gently scan your brother man."—Arcadia News.

Thousands Have Kidney Trouble and Never Suspect It.

Prevalency of Kidney Disease.

Most people do not realize the alarming increase and remarkable prevalency of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, *who content themselves with doctoring the effects*, while the *original disease* undermines the system.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

A dispatch to The Times-Union from Quitman, Ga., says: "Charley Pittman, the negro barber who was arrested on suspicion of being the murderer of Miss Lorena Allen at Greenville, Fla., was shot to death here Saturday night. The particulars, as gathered from an eye-witness, are that the crowd had gathered around the calaboose where Pittman was confined, when the deputy sheriff ordered them away. The crowd went off and the sheriff went inside to get the negro out, when he was attacked by Pittman, who had a knife and cut the sheriff badly. The negro was then shot by the deputy, and the mob hearing the shots ran up and finished killing the negro. The evidence against the negro was strong. A horrible feature of the sad tragedy is that the young lady was criminally assaulted before being murdered. Pittman's bloody shirt and clothes were found at a negro woman's house, and the woman said that Pittman had brought them there to be cleaned."

THIN PEOPLE

Of Gainesville, Try This.

Weigh yourself. Take Vinol a while. Weigh yourself again. The gain in flesh, strength and appetite will be better argument for Vinol than all we can say.

This is because Vinol contains in a concentrated form all the medicinal elements of cod liver oil taken from fresh cods' livers, but it is a better body-builder and strength-creator than cod liver oil or emulsions because the useless, indigestible and nauseating oil has been eliminated and peptonate of iron added.

Vinol creates an appetite, strengthens every organ in the body, tones up the digestive organs, makes rich, red blood and firm healthy flesh.

As a body builder and strength creator for old people, weak women, delicate children, and after sickness and for pulmonary troubles, Vinol is recommended by over 5,000 of the leading druggists of the United States.

So sure are we of what Vinol will do that we refund money to those who try Vinol and are not benefited. —W. M. Johnson, Druggist, Gainesville, Fla.

TOMORROW'S BIRTHPLACE.

Line in the Pacific Where It Shakes Hands With Yesterday.

Most people who have read Jules Verne's "Around the World In Eighty Days" will remember how narrowly the traveler missed his bet, having forgotten that in following the sun from east to west he had gained one day.

When one crosses the Atlantic from London to New York he gains rather more than half an hour each day. From New York to Chicago another hour is gained, another to Denver, another to San Francisco, which is reckoning time eight hours later than London and of course the best part of a day later than Shanghai and Yokohama. In crossing the Pacific there comes a time when the day begins, where yesterday and tomorrow shake hands and where the traveler is cheated out of a day in his life.

In mid-Pacific, going west, one skips from Sunday to Tuesday. Going east he has one day of the week repeated—two Sundays or Tuesdays, as the case may be.

The line of the changing day is not a straight one. The islands in the Pacific take their time from the continent with which they trade and from which they were discovered. Thus the line of the change zigzags down the Pacific from south to north, dodging between the islands.

Hence it might easily happen that a ship which has already skipped a day would reach an island which clings to San Francisco time. In such a case it would be Monday on shore and Tuesday on the ship.

If the ship's jolly boat were lying at a wharf, it would be Monday on the wharf and Tuesday on the boat.

And if a person lives somewhere near the line he can get a sailboat and visit yesterday and tomorrow in the most delightful fashion.

Itching piles, provoke profanity, but profanity won't cure them. Doan's Ointment cures Itching, bleeding or protruding piles after years of suffering. At any drug store.

HEARTILY ENDORSE COOPER REMEDIES

Dealer and Patient at Hallowell, Maine, Make Statements Under Oath.

In connection with the intense interest manifested by the public at large in the theory of L. T. Cooper as to the human stomach being the source of nearly all ill health, the statements of Mr. W. D. Spaulding, of Hallowell, Me., one of the oldest and best-known druggists in that state, and of Mrs. Frederick Harvey, a well known nurse living in the same place, will be interesting to thousands of persons who are today suffering from ailments directly traceable to the stomach. The fact that these statements are made voluntarily, under oath, removes all element of doubt. The statements follow:

"HALLOWELL, MAINE, July 20, 1907.

"To THE COOPER MEDICINE CO.,
"Dayton, Ohio.

"Gentlemen—The policy at Spaulding's drug store is to gain the perfect confidence of the public by never recommending any medicine or treatment until its virtues have been fully established. The Cooper Remedies were to us an unknown quality, we were very skeptical of their medicinal value, and it was not until several of our customers had received such beneficial results from their use that we could no longer doubt their value that we consented to take the agency for the Cooper Remedies in this territory, heartily endorsing the same.

"Herewith we give the testimonial of a lady whose case came under our personal observation from her being a regular customer, and she says:—

"Gentlemen of the Cooper Medicine Co., Dayton Ohio: It is with pleasure I recommend your New Discovery medicine, of which I have taken the contents of three bottles, and can today eat anything without inconvenience to myself. For a number of years I had suffered intensely with severe headaches, sour stomach, indigestion, pains in my side, and complications which made it exceedingly hard for me to accomplish even my household work. Physicians had given me dozens of prescriptions, which failed to accomplish a cure or even relief. Your New Discovery medicine advertisement attracted my attention, and I purchased a bottle of the medicine, which I took according to directions and before it was half gone, I felt very much better; when I had taken the contents of two bottles I gained courage to eat many things which for years I had denied myself, and found they caused me no ill effects. Today, after having used three bottles of the New Discovery, I can eat anything and feel that I am a well woman once more, and therefore would advise anyone to take Cooper's New Discovery, for I feel sure it will cure them.'—Mrs. Frederick Harvey, Hallowell, Me.

"We endorse the above testimonial, under oath, as being correct.

"W. D. SPAULDING.

"Testimony before me under oath this 22nd day of July, 1907.

"GEO. A. SAYWARD,
"Notary Public."

The Cooper remedies have proven eminently satisfactory wherever introduced. We will be pleased to introduce their nature to anyone wishing to know about them. We are agents. —J. W. McCollum & Co.

"WHY do I take Cardui"? writes Mrs. Jelemma Mullins of Odessa, W. Va. "Because, after suffering for several years with female trouble, and trying different doctors and medicines without obtaining relief, I at last found, in Wine of Cardui, a golden medicine for all my ills, and can recommend it above all others for female complaints."

Cardui furnishes safe relief for backache, headache, periodical pains, irregular, painful or unhealthy catamenial flow, and all ailments from which sick women suffer. A perfect tonic for delicate women. A pure vegetable medicine for girls and women who are subject to the complaints peculiar to their sex. Has benefited over a million who used to suffer as you do.

HILL BUILDING A GRAND STRUCTURE

One of the Most Modern Buildings in the Entire State.

HAS ALL MODERN EQUIPMENTS

Building is Equipped With Gas and Electric Fans, Elevator, Lavatories and Everything Modern in the Building Line.

The new Hill building, which is one of the most modern and most up-to-date business houses in the State of Florida, has been completed, and in a few days will be occupied by The C. W. Hyde Company, who have been located for several years on the northwest corner of East Main and E. Liberty streets.

The new building, which is located on the southeast corner of East Main and E. Liberty streets, is a model in all the word implies. The building, in addition to carrying about one thousand extra square feet of space, is equipped with an elegant plate-glass front, in which the elegant stock carried by the Hyde Company can be displayed to advantage. The building has not only a plate-glass front on East Main, but a hundred feet deep on East Liberty, with the patent dust-proof cases.

The building is fitted out with electric and gas lights, electric fans, a complete lavatory system, elevator, and in fact all conveniences which may be found in any first-class store of the country.

When the Hyde Company moves into this store Gainesville may boast of having the largest and most up-to-date department store in the State between Jacksonville and Tampa, and excelled by none in point of up-to-dateness in these cities.

REAL ESTATE TRANSFERS.

L. B. Long Sold Home in North Gainesville and Bought Town Place.

There were two important real estate deals recorded Saturday. L. B. Long, who owned a nice home, comprising a two-acre lot and a comfortable cottage in North Gainesville, sold the same to Mrs. Harris. This is one of the most desirable places in North Gainesville, and the friends of Mrs. Harris congratulate her upon her new possession.

Mr. Long, desiring to be near his duties as a painter, purchased from W. R. Thomas a neat five-room cottage on North Pleasant street, where he will reside with his family.

BABY GIRL CRIED AND SCRATCHED

All the Time—Torturing Eczema Covered Her Body—Could Not Sleep—Doctor Said Sores Would Last for Years—Skin Now Clear.

CURED IN THREE MONTHS BY CUTICURA REMEDIES

"I take great pleasure in telling you what a great help it was for me to use Cuticura Soap and Cuticura Ointment for my baby niece. She was suffering from that terrible torture, eczema. It was all over her body but the worst was on her face and hands. Her hands were so bad that she could not hold anything. She cried and scratched all the time and could not sleep night or day from the scratching. I had her under the doctor's care for a year and a half and he seemed to do her no good. I took her to the best doctor in the city and he said that she would have the sores until she was six years old. But if I had depended on the doctor my baby would have lost her mind and died from the want of aid.

"I used all the remedies that everybody told me about and I tortured the child almost to death. Then I saw in the paper how Cuticura was the thing for irritating skin. I bathed her with warm water and Cuticura Soap and used the Cuticura Ointment. She was cured in three months. Now her skin is as clear and smooth as it could be. I shall recommend the use of Cuticura wherever I see the skin in bad condition. Alice L. Dowell, 4769 Easton Ave., St. Louis, Mo., May 2 and 20, 1907."

Manier's Slayer to Hang.

Atlanta, Feb. 3—The supreme court has refused to grant a new trial to Andrew Johnson, the convicted murderer of Policeman J. A. Manier, which means that Johnson must hang on a day to be set by the court. Under the original sentence Johnson was to have been hanged on Friday, Jan. 3, but that sentence was superseded by his appeal to the supremt court. It will be ten days before remititur from the supreme court reaches the superior court, and the latter will have to set a new date for the execution of Johnson. It is probable, therefore, that he will be hanged early in March.

WORM EATING.

One of the Trades Classed as Dangerous in England.

Time was when it was difficult to obtain an antique oak escritoire or a set of twelve solid dining room chairs for anything less than £10. But "Nous avons change tout cela," as they say in Brittany. Nowadays, thanks to the indefatigable labors of the worm eater, we can purchase furniture of almost any age, in almost any condition of senile decay, for a modest sum. The worm eater is indeed a public benefactor, one who does good by stealth and would blush to find it fame if he had not long ago renounced the gentle art of blushing.

He is usually an elderly man with a slight limp, is the worm eater. In early youth he was apprenticed to a jobbing house carpenter, but by sheer ability, by pluck, grit, perseverance and the exercise of those qualities of body and mind which men call genius, he has risen above his station and the sphere in which he was born and now occupies a position in the professional world as far above that of his original employer as Portland place is above Pimlico. He is not, however, unduly uplifted by success. He does not desert his old master. Nay, more, upon his talents do the finances of his employer largely depend. Vainly may the carpenter piece together fragments of deal into the shape of a bureau; vainly may he turn empty wooden biscuit boxes into cabinets. The public will not look at his wares until the master hand of the worm eater has been laid upon these trumpery modern fabrics with a mellowing touch that is only comparable to that of Father Time.

Wresting the common deal armchair from the clutch of the carpenter, our hero proceeds to paint it all over with a solution of beer and boot blacking until it presents the appearance of extreme age. He then takes a diminutive gimlet from his pocket and makes a number of minute holes in the legs and back of the chair until even an expert would think that a worm had been making its mighty nest for centuries in the wood from which this article of furniture is manufactured. (The worm is nature's lathe. He turns things while you wait; hence the old saying to the effect that the worm will turn. You cannot prevent him.)

The chair is now ready to be displayed in the window of "Ye Olde Antique Seconde Hande Furniture Shoppe," where it will be labeled: "A Bargain. Only £37. Supposed to have been one of the Duke of Buckingham's family seats." And it will eventually be bought by a wealthy American millionaire who wishes to furnish his home in Mogsville, Va., in a style some three centuries anterior to the discovery of his continent. You may wonder perhaps why I have included the profession of the worm eater in the list of "dangerous trades." The danger with which the worm eater is invariably faced is that at any moment he may be found out and sentenced to six months' hard labor for intent to defraud. Truly 'tis a hard life and worthy of all your sympathies.—London Tatler.

The Kind You Have Always Bought

Prize Money in 1762.

To the English victors of Havana belonged the spoils, and very rich and important these were.

Besides the nine Spanish men-of-war found intact in the harbor, which added to the three sunk at the entrance and to one or two others captured outside in the course of the operations formed about one-fifth of the naval power of Spain and seriously crippled her for the rest of the war, no less an amount than £3,000,000 was realized in prize money by the capture of this wealthy city. Of this great sum we are told that Albemarle and Pocock as commanding respectively the land and sea forces received no less than £122,697 each, while Commodore Keppel's share amounted to as much as £24,539, and doubtless his brother, Major General Keppel, received an almost equal sum. Thus the Keppel family benefited by this expedition to the tune of considerably over £150,000, and it is recorded that General Elliott with his share of the prize money purchased the estate of Heathfield, in Sussex, from which he afterward took his title. Such were the solid rewards obtainable in war in the eighteenth century, when the profession of arms was for the successful soldier considerably more lucrative than it is today.

"Once upon a time," he said, "a man was going along a dark street when a footpad suddenly appeared and, pointing his pistol, began to relieve his victim of his money.

"The thief, however, apparently suffered some pangs of remorse. 'It's pretty rough to be gone through like this, ain't it, sir?' he inquired.

"'Oh, that's all right, my man,' the 'held up' one answered cheerfully. 'I was on my way to a bazaar. You're first, and there's an end of it!'"—London Telegraph.

ENDORSED MINISTER'S SERMON.

Rev. Father Tubman Receives Letter from President Roosevelt.

Reno, Nev., Feb. 3.—Presidential approval of the sermon delivered in the Catholic church here Sunday, Jan. 19, has been received by the author of the opinions, the Rev. Father Tubman.

A letter from Theodore Roosevelt tells of his endorsement of the priest's views on race suicide and the assertions that "celebacy is false to God, false to country and false to self," are essentially upheld.

The president applauded the statement that race suicide, "affinities" and "other outgrowths of modern marriages and divorces," deserved more than condemnation from the clergy. The priest's utterances created a sensation at the time, because he said he desired no unmarried man or woman to remain in his parish.

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

COIN MOTTOES.

Inscriptions That Were a Joy to the Cynics and Critics.

A collection of coin mottoes gathered by an Italian student, Amerigo Scarlatti, was published in Minerva, an Italian periodical. Scarlatti is of the opinion that such inscriptions, though not intended to be cynical, too often admit of such an interpretation through the irresistible habit of the public of ignoring the intention of the designer and applying the motto to the coin itself.

Thus when Charles II., king of the two Sicilies, had engraved on his silver ducat the Latin words "Unus non Sufficit," meaning "One is not enough," all the world insisted on forgetting that the king referred to a single scepter and enthusiastically agreed with him that one ducat wasn't enough for any one.

On the contrary, a storm of ironical opposition was aroused when Louis de Bourbon, king of Etruria, in the early part of the last century inscribed "Videant Pauperes et Lactentur" on his coins. The words mean "Let the poor see and rejoice," and of course every one wanted to know why a poor man should rejoice at merely seeing a piece of money.

On the papal coinage of 1573 bearing the arms of Gregory XIII. are the words "Et Super Hanc Petram" (And upon this rock). Of course the pope and the artist who designed the coin meant the words to refer to the papacy, but the evil minded applied them so maliciously to the coin itself that the issue was speedily stopped. A similar opportunity for evil tongues was afforded when the Knights of Malta coined an issue of dollars with the sign of their order, the Maltese cross, and their motto, "In Hoc Signo Militamus" (In this sign we combat). The ribald affected to take it as a confession that with them money was truly the sinew of war.

A Venetian lira dated 1474 has the somewhat ambiguous motto "In Tibi Solo Gloria" (To thee alone the glory). A sequin coined by Cardinal Bezgonico in 1744 bears the words "Veni Lumen Cordium," or "Come, thou light of hearts." Clement XI. issued a coin with an image of the Madonna, with the legend "Causa Nostrae Laetitiae" (Cause of our joy), and a Venetian piece with an allegorical figure of Justice, with the words "Nostra in hac felicitas" (Our happiness in this). All of these inscriptions were irreverently diverted by contemporaries from their true object to the money itself.

Set the Pace.

Young Mabel had a habit when soup was served at the table of mushing her crackers or bread in it until it was a great mess. Her mother made many efforts to have her correct this strictly primeval habit.

One day there was to be company at the table, and the mother said:

"Now, Mabel, Mrs. Brown is to dine with us tonight, and I want you to act at the table just as nicely as she does. Please don't 'mush' your soup."

Mabel promised faithfully to follow the example set by Mrs. Brown, and the dinner opened with every promise of a fine time. However, Mabel was using a pair of very sharp eyes on Mrs. Brown and in an instant blurted forth at the top of her voice:

"Oh, mamma, Mrs. Brown is 'mushing' her ice!"

LAND AND WATER BOATS.

Queer Vessels That Are Used In Wild Timber Districts.

Deep in the wilds of the Canadian timber lands and in a number of the northern lumber districts of the United States wonderful boats climb hills, creep through swamps and woods, traverse small streams from one lake to another and even climb upon freight cars if long transportation is necessary.

Practically a steamboat and steam winch combined, the engine can be thrown in gear to drive the paddle wheels or twin screws, according to which of the two the boat is equipped with, or drive a cable drum which holds a mile of five-eighths inch steel cable used for warping and crossing portages.

At the end of a water journey the cable is carried to a tree some distance inland and at one side of the path designated for the boat to pass over. Passed through a pulley block, it is carried back to the boat and run through a pulley block at the bow. Then, returned inland again, it is fastened to a tree on the other side of the path and just opposite the first tree, thus making it possible for the boat to travel a straight course without dodging the anchor trees. The engine is geared to the cable drum, and the cumbersome but powerful craft commences its rock strewn journey.

No roadway is required, logs and skids being thrown a few feet apart across the pathway to keep the shoeing from grinding on the rocks. In this manner the boat can travel from one to two miles a day and take a grade of one foot in three when necessary.—Popular Mechanics.

Modern Plays and Players.

We no longer demand that a man or woman play a part. We insist that the part fit the man or woman. This condition no doubt is largely the fault of managers, who instead of requiring impersonation pick performers for their likeness to the characters to be assumed. "Have you a father?" one can imagine them inquiring of a candidate. "Yes." "Then you won't do. This man's father died twenty years before the beginning of the play."—Argonaut.

CATARRH A SERIOUS FAR-REACHING BLOOD DISORDER

Even in its early stages Catarrh is almost intolerable, caused by the stuffy feeling in the nose, the buzzing noises in the ears, the continual "hawking and spitting" difficult breathing, etc. But when the blood becomes thoroughly polluted from the catarrhal matter, the inflammation extends to the bronchial tubes, causing hoarseness, and often an aggravating cough; the stomach is affected, resulting in dyspepsia, loss of appetite and strength, and gradually all the mucous membranes of the body become diseased and the system upset and deranged. Frequently the kidneys and bladder are attacked, and the constant passage of impure blood through the lungs, diseases these important members, and Catarrh terminates in Consumption. Catarrh is a deep-seated blood disease, and must be treated constitutionally, for it is beyond the reach of local treatment. S. S. S. cures Catarrh by cleansing the blood of all the impure catarrhal matter and at the same time building up the entire system. It goes down and attacks the disease at its head, in the circulation, and removes every trace of the impurity that is causing the trouble. Then as rich, pure blood circulates through the body, the inflamed membranes commence to heal, the mucous discharges grow less and finally cease, and all the disagreeable and disgusting symptoms of Catarrh disappear. S. S. S. has no equal as a cure for this disease. It refines and purifies the entire circulation and repairs the damage done by Catarrh. Special book on Catarrh and any medical advice free. DR. YOCUM'S MISFORTUNE.

Left Grip Containing His Effects on Train Saturday Night.

A great inconvenience, as well as a misfortune, occurred to Dr. W. F. Yocum, dean of the University of Florida, about 1 o'clock Sunday morning.

Dr. Yocum had a call to Perry, in Taylor county, to address a prominent meeting Saturday. With that charitable disposition which has always characterized his nature, he accepted, and accordingly left on Friday to fill the appointment.

Dr. Yocum filled his appointment with promptness on Saturday and started home, reaching here on the 1 o'clock train Sunday morning. In leaving the train, however, he forgot to take his suitcase, which had his name on it, and anyone whom this notice might reach can send the same to Dr. Yocum, with an assurance that the favor will be appreciated.

Death of An Infant.

Information was received in this city Sunday of the death of the two-year-old daughter of Mr. and Mrs. W. E. Long, which occurred at the home of her parents Saturday night. Friends of the bereaved parents sympathize deeply with them in their trouble.

The funeral was held Monday afternoon, Rev. S. B. Rogers officiating. The interment was in Evergreen cemetery.

Dr. Harry Pearce, formerly of this city but who has opened dental offices at Lakeland, spent Sunday with his mother, Mrs. Robt. Wixson, and sister, Mrs. W. O. Downing, of Wilmington, Del., who is here on a visit. Dr. Pearce's numerous friends will be glad to learn that he is pleased with his new home, and that his prospects are good in the South Florida city.

Friends of Manager Van Allen, of The White House, are glad to see him out again, after having been confined to his bed with la grippe. Mr. Van Allen is very popular with the traveling public and has been missed in the office for the past few days.

Stop earche in two minutes; toothache or pain of burn or scald in five minutes; hoarseness, one hour; muscleache, two hours; sore throat, twelve hours—Dr. Thomas' Electric Oil, monarch over pain.

PHOTOGRAPHY.

Photography today is an economic and social necessity in every community. It maintains the memory and affections of family life through the picture it makes, and which we could not now do without. How often is regret expressed that no picture exists of some friend or relative who is no longer with us! Sometimes, indeed, the camera has to intrude upon the sacredness of the death chamber itself when relatives feel that a photograph in such circumstances is better than none at all. Do not procrastinate. Be wise and "secure the shadow ere the substance fades."

You can get a picture from locket to life-size at Smith's Studio.
